"Through the viewfinder I can feel an emotional connection to people which I cannot without. Viewing the world with a viewfinder has always been an important part of how I perceive the world." **Richard Maguire**

"Disparate fragments of experience, memory and observation become 'fixed' on a surface in a work. I am especially aware that at any moment compositions could change, be blown by the wind and scattered again. I believe that excitement, beauty and hope can coexist on the surface of any object." **Sonia Boué**

"My handcrafted silver and gold jewellery is bold, yet feminine and delicate; inspired by line, form and pattern found in the natural environment." **Jo Turner**
